

PBK K-12

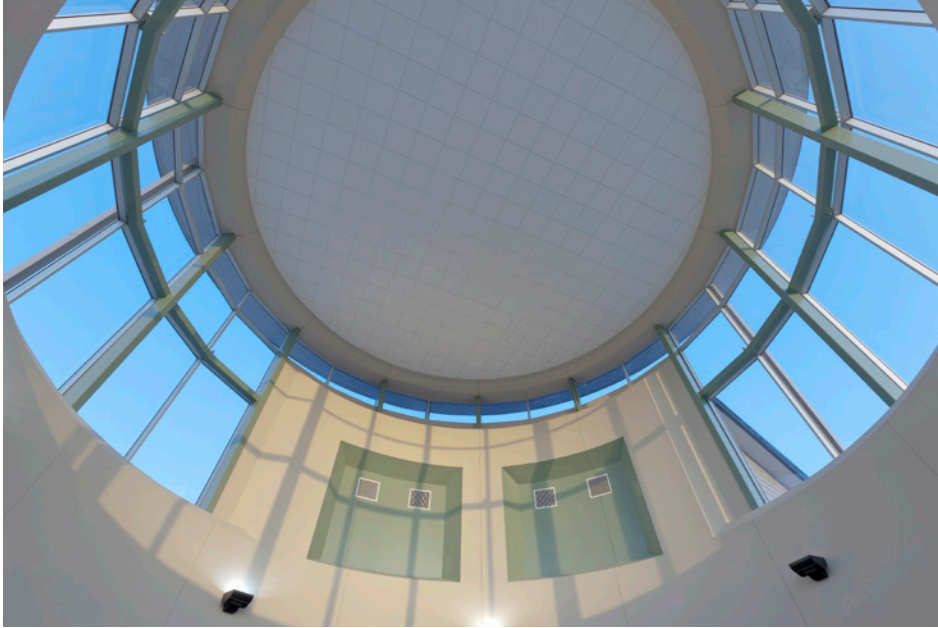

Studio Profile

“They symbolically captured the spirit of the (community) and produced an architectural reflection of the natural beauty of the surrounding area. But more importantly, they designed a facility that incorporates curriculum and instruction into every aspect of the building.”

OVERVIEW

PBK does not measure success by the number of schools we have built, nor by the number of design awards our projects have earned. We measure success by our ability to service each and every client in a superior way; and by our ability to create timeless, inspirational learning environments that have a positive impact on staff and student performance.

APPROACH

Value

Projects consistently fall within the lowest 10% of construction costs for their respective scope, size and region.

High Performance

Evidence-based design that proves the built environment can positively effect staff and student performance.

Timeless

Custom designs that complement the surrounding community while maintaining aesthetic value for decades.

Sustainable

Environmentally-conscious design solutions achieved in the most fiscally-responsible manner.

WHAT WE DO

PBK facilitates a collaborative, team-driven approach to deliver customized, purpose-specific planning and design solutions that enhance end-user performance and maintain strict control over budget and schedule parameters.

Architecture

- Programming & Schematic Design
- Design Development
- Sustainable Design Integration
- Cost Estimating & Scheduling
- Construction Documentation
- Bidding & Negotiations
- Construction Administration
- Furniture Selection

Engineering

- Civil Engineering
- Mechanical Engineering
- Electrical Engineering
- Plumbing Engineering
- Structural Engineering
- Technology Consulting

Planning

- Master Planning
- Bond Planning
- Cost Estimating
- Feasibility Studies
- Public Private Partnerships
- Philanthropic Strategies

Facility Consulting

- Facility Condition Assessments
- Facility Management Programs
- Facility Maintenance Programs
- Web-Based Asset Data Management
- Forensic Investigations
- Disaster Preparation & Recovery
- Construction Management

Program Management

- Serve as Client's Agent
- Cost Analysis & Management
- Schedule Management
- Sustainable Design Management
- Quality Control Standards
- Bid Package Preparation
- Contract Management
- Architectural & Engineering Oversight
- Software Management

High Performance Design

High performance design principles can be incorporated into every project. The PBK High Performance Studio specializes in identifying no-cost and/or low-cost design applications that are practical and yield a positive impact on end-user performance.

National Perspective

As a member of the America's Schoolhouse Council, PBK serves as a world-wide leader in the progressive development of cutting-edge applications that impact the built learning environment and how it can positively affect student performance. AmericasSchoolhouse.com

30 Years of Performance

Since 1981, PBK's K-12 design work has earned more than 250 planning and design awards for architectural excellence with distinction in Value, Design, Innovation, Process of Planning, Educational Appropriateness and Sustainability.
