## HOW PBK SPORTS OUTPERFORMS THE COMPETITION

To get the best value, you need a design firm that offers world-class service and nationally recognized expertise in the design of sports facilities.

## FIRM OVERVIEW

PBK Sports, a division of PBK, is a multi-discipline group of architects and engineers that specialize in providing expert programming, design, and construction administration services for athletic and recreational facilities.

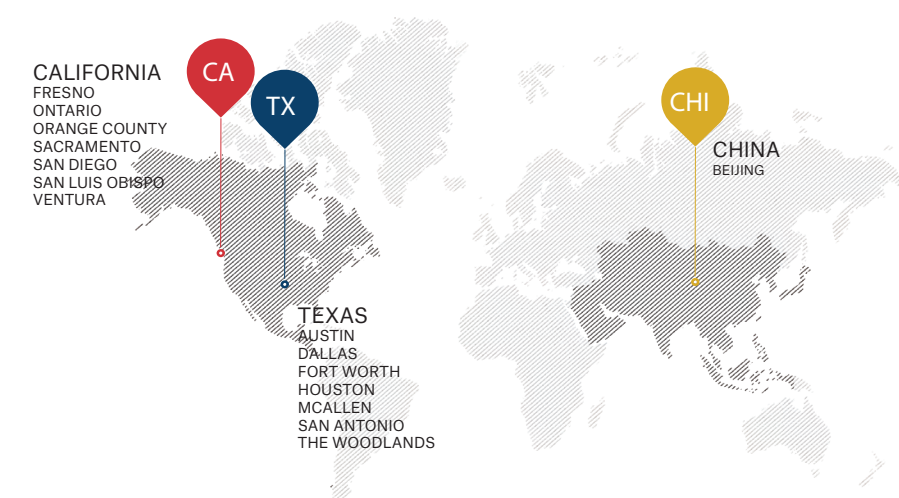

PBK Sports assumes a collaborative, team-focused approach to effectively enhance athletic performance, spectator experience, and maintain strict control over project budget and schedule. Our work is delivered with relentless customer service, backed by a proven track record of going above and beyond to ensure our clients get the best possible service on every project.

### Performance Inspired Design

PBK Sports is proud to be a trailblazer in modern sports architecture. That reputation extends to our entire studio, who possess a wealth of experience designing sports facilities.

We understand the inner workings of an athletic facility and can meet the expectations of players, coaches, and fans. Regardless of a project's size or budget, we strive for robust and appealing. By elevating problem solving into an art form, we create venues that improve how athletes play, interact, heal, and learn.

We believe that listening and responding to a client's needs, rather than our own, leads to performance inspired design.

### Focused Expertise

As the market adjusts to the modernization of historic venues, building owners are striving for the best use of their properties. Our team of planners and designers seek to maximize value by facilitating a collaborative programming and planning session to develop functional, economic, sports-specific solutions.

### Professional Culture

The cornerstone of our business philosophy can be summed up in three words: unparalleled customer service. Every aspect of our firm – from selection of personnel, to construction administration services, is strategically aligned to respond to the specific needs of our clients. No matter how large or small the project, we ensure a world-class level of service is delivered to all.

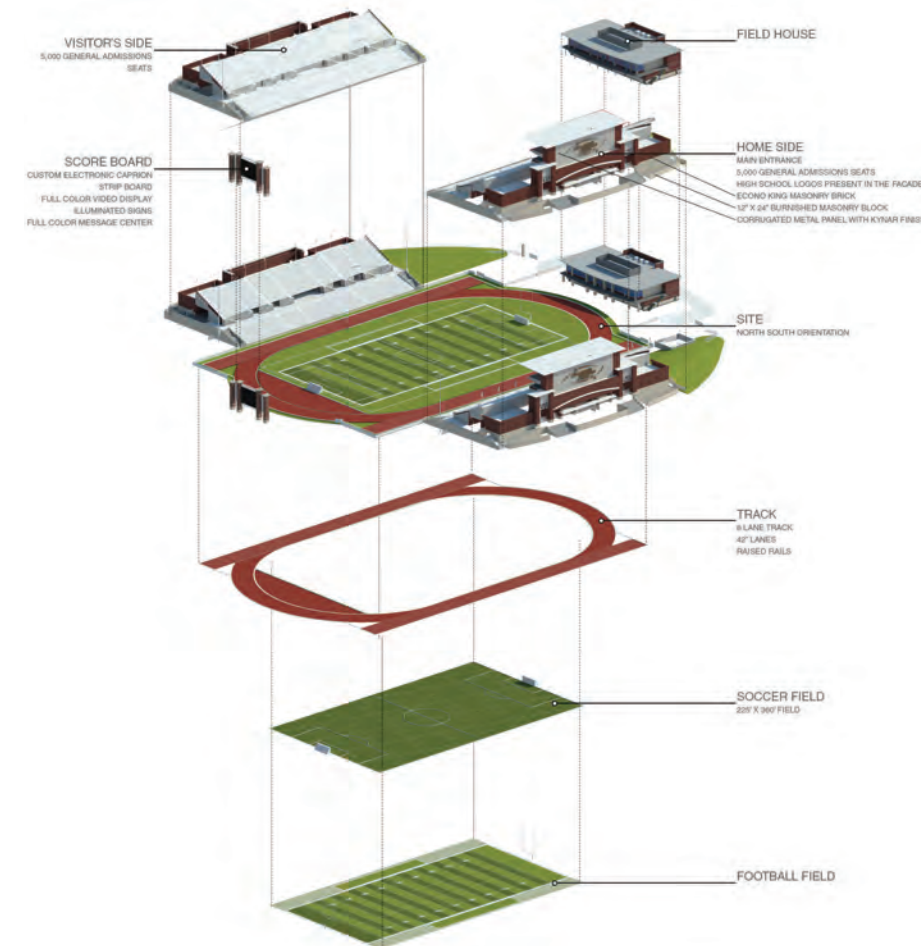

# SPORTS ARCHITECTURE, ENGINEERING, PLANNING & DESIGN

## HIGH PERFORMANCE SPORTS DESIGN

The design of sports facilities is driven by many quantifiable, objective factors that include functional needs, branding, schedule, evolving technologies, entertainment, food service, parking, building security and cost-effective operations. There are also less quantifiable, more subjective factors including regional influences, urban design and context, sustainable building systems, growth and change.

The diversity and depth of our experience allow us to deliver sports projects, integrating the latest in technology with artful design, creating a facility that reflects the context and function drawn from our client's goals and objectives.

## HEALTH + WELLNESS

PBK Sports understands that health and wellness form an integral part to the education environment. We strive to create spaces that reflect this principal and facilitate healthy exercise and invigorated learning.

PBK Sports designs spaces and structures that consider the health and wellness of their end users from concept through construction. We firmly believe healthy environments are essential to education and sport.

### Active Design

While sports facilities are plainly designed for physical activity that promotes health, PBK Sports extends this initiative to the surrounding structures and spaces. By carefully planning circulation and connectivity with the wider environment, we can craft athletic environments that blend into their greater campuses. This design virtue

also results in greater value for the client, as the spaces often double as community areas, and are thus able to be utilized by, and beneficial to, a greater number of people.

### Materials and Design

PBK Sports strives to use healthy building materials wherever possible. We have on-staff sustainability experts well-versed in LEED requirements. We use sustainable products and principals, whether they be low-VOC paints and flooring, or a floor plan or site plan that allows for the maximum of natural light to enter the space. Lighting and irrigation are also chief concerns when it

comes to creating sustainable and healthful environments. The site and natural atmosphere of the location of the project also determine which sustainable decisions will be made. For instance, turf may be the 'greener' solution in one context and not in another. While many would assume that a natural grass field of play would always be the best option in this regard, turf is often much more sustainable.

## CHAMPION-LEVEL PERFORMANCE

PBK Sports draws strength from our core ideology grounded not only in the successful projects, but also in the unparalleled service a client receives throughout the entire process.

# STADIUMS

Stadiums are unique and highly specialized pieces of architecture in which thousands of community members assemble, united by a common purpose, competitive spirit, and entertainment.

PBK Sports designs landmark stadiums for clients that are widely recognized for their innovative and significant additions to our architectural and urban landscape. The design is driven by many quantifiable factors, such as branding, scheduling, technology, security, and food service. There are also less quantifiable factors including regional influences, urban design and context, sustainable systems, and common growth and change.

Pridgeon Stadium

Challenger Columbia Stadium

# AQUATIC FACILITIES

We consistently research and create best practices that improve spectator and user experience.

Aquatic venues in the past decade set the stage for some of the most competitive athletic achievements held nationally at the Olympic level. Our facilities have played a role in these notable moments, demonstrating performance and longevity. In these complex environments, every component is examined and incorporated.

# MULTI-PURPOSE ARENAS

We understand the inner workings of arena design and can anticipate and meet the expectations of spectators, users, players, and coaches.

Arenas are home to some of life's most compelling experiences; championships, graduations, concerts, and speeches. The arena is a balance of art and technology, circulation, and event space. Form and organization come together to maximize the educator's, athlete's, and spectator's experience.

# MULTI-SPORT COMPLEXES

Our approach to multi-sport complexes is uniquely structured to enhance spectator engagement and create a dynamic gameday experience.

PBK Sports has planned and designed numerous sports complexes for every level of competition and play. We address training programs, drainage, sports lighting, orientation, and adjacencies, along with spectator and athlete circulation. Our experience with different sports fields and surfaces allow us to bring in the best value, best-in-class facilities.

# TRACK + FIELD

Track and field planning and design demands a high level of aesthetic and function that only PBK Sports can deliver.

To plan and design a venue that hosts multiple events in a safe and efficient manner can be challenging. Complicating the task are strict tolerances required to certify each event. At PBK Sports, we understand the trends in these facility types; will work with you to tackle these challenges and find the perfect mix of design and efficiency.

Challenger Columbia Stadium

Turner Stadium

Texas A&M University E.B. Cushing Stadium

# BASEBALL + SOFTBALL

Each ball field project is custom-tailored for the institution's unique vision and functional objectives.

The technology, equipment, training, and turf have evolved to elicit the utmost performance. PBK Sports examines every component and design features of ball parks to address these aspects. Our designers and engineers create these facilities to meet all competition level requirements and incorporate vision and site to produce the best home field advantage.

# INDOOR SPORTS FACILITIES

Indoor practice facilities serve a multitude of uses. PBK Sports knows how to program and design a facility that is flexible and adapts to multiple uses.

Indoor practice facilities are great for training, multi-sports activities, pre-game functions, and community programs. The ability to assemble and train inside a climate-controlled facility permits multiple groups to run their programs during inclement weather. These common details prioritized in these facilities include synthetic turf, running tracks, cameras and video playback, music, batting cages, separation curtains, football passing and line drills, and the replication of true spectator noise.

## TENNIS COMPLEX

PBK Sports knows what it takes to create the perfect tennis courts for durability, performance and design.

Tennis is a popular, international sport and it continuous to grow in the United States. PBK Sports has completed a vast number of complexes to include unique specifications, propelling our team as experts in the design and engineering of these facilities. Our engineers analyze subgrade site and weather conditions to achieve our clients' request for durability and performance.

# PERFORMANCE CENTERS

PBK Sports specializes in performance centers that create a student-centric social and educational hub, merging multiple programs into one streamlined space.

Performance centers have become instrumental in the development of the health and wellness of any athlete. The versatility of the center is invaluable to any campus with the addition of new technology, international sports, and amenities. Our design expertise transforms these buildings into larger, programmed facilities for future activities and expansion.

# SPORTS SURFACES

PBK Sports designs every conceivable type of sports surface to serve every type of event, competition, or celebration.

PBK Sports designs tracks and fields to meet clients' expectation of durability, maintenance, and athlete performance. Innovations in design and engineering have been refined through years of practice with all-surface specific subsurface site conditions, venues, and budgets.

# SOCCKER COMPLEX

PBK Sports is well-versed in creating a synergistic experience between team and spectator, delivering a design that truly creates an electric atmosphere for every gameday experience.

Soccer has grown in popularity in both large and small communities, suburbs, collegiate arenas, and at the professional level. PBK Sports has the expertise to engineer fields with natural or synthetic turf for soccer in multiple venues.

# MASTER PLANNING

PBK Sports takes a partnership position in assessing long-term client needs and strives to deliver timeless solutions.

A master plan allows for the design and growth of each venue so that compromises do not have to be made to limit performance. At PBK Sports, we use the experience gained from thousands of projects to plan for your future success and growth.

“

**PBK SPORTS EXISTS SPECIFICALLY TO ADDRESS ATHLETIC FACILITY CONCERNS AND THEIR BODY OF WORK REFLECTS THEIR COMMITMENT TO QUALITY... I GIVE PBK SPORTS THE HIGHEST PROFESSIONAL REFERENCE POSSIBLE.**

”

## SPORTS INTERIORS

The interior design of sports facilities is an integral part of compatibility with the overall environment. The coordination of graphics, signage, artwork, furniture, color selection, materials, and detailing are programmed to deliver distinctive environments. We create spaces that work, energize, and encourage athletes, staff, and spectators.

### Typical Services

- Space Planning
- Interior Design
- Sports Strategies
- Design Standards
- Furniture Planning, Design, Guidelines and Standards
- Lighting and Fixture Design
- Cost Analysis

## GRAPHICS + BRANDING

Sports facilities take on an identity—a life on their own—when color, lighting, 2D and 3D elements and creative graphics are infused in buildings, in halls, within spaces, creating a feast for the eyes...

The energy and excitement created from athletic competition and spirit is communicated through the creation of branding and graphics throughout our sports facilities. Our designers look to inspire, motivate, and create dynamic environments featuring team identity expressed through color, mascots, graphics and wayfinding.

*I WOULD LIKE TO EXPRESS HOW PROFESSIONAL THE PBK SPORTS STAFF WAS DURING OUR DESIGN PHASE, AS WELL AS THE CONSTRUCTION PHASE OF OUR BEAUTIFUL CHALLENGER COLUMBIA STADIUM. THEY LISTENED TO OUR WANTS AND NEEDS AND MADE ADJUSTMENTS AS WE REQUESTED*

*THEM. THE ENTIRE PROCESS WAS OF ONE PROFESSIONALISM, AND I KNEW I COULD CALL ON THE STAFF WITH QUESTIONS AT ANY TIME. WE ARE SO VERY PROUD OF OUR CHALLENGER COLUMBIA STADIUM! THANK YOU, PBK!*

— DEBBIE FUCHS, DIRECTOR OF ATHLETICS
